

MAC HOSTING · HARDWARE SPECIFICATIONS

Dedicated Apple silicon, hosted in the Netherlands.

Every plan runs on a real, dedicated Apple Mac mini or Mac Studio — no virtualisation, no shared cores. Hardware lives in our Tier III certified datacenter near Amsterdam, with redundant power, remote APC switching and an optional JetKVM out-of-band console.

Custom 1U trays, colour-coded cabling and dual-feed PDUs in our private cages.

Plan comparison

Plan	CPU	RAM	SSD	Price / mo
M4 Standard	M4 · 10-core CPU	16 GB	256 GB NVMe	€ 99
M4 Plus ★	M4 · 10-core CPU	16 GB	512 GB NVMe	€ 119
M4 Premium	M4 · 10-core CPU	24 GB	512 GB NVMe	€ 139
M4 Pro	M4 Pro · 12-core CPU	24 GB	512 GB NVMe	€ 195
Mac Studio M4 Max	M4 Max · 14-core CPU	36 GB	512 GB NVMe	€ 225

Plans in detail

Real Apple hardware photographed in our racks. Every node ships with remote APC power, monitoring and 24/7 on-site remote hands.

PLAN

M4 Standard

CPU	Apple M4 · 10-core CPU
GPU / NPU	10-core GPU · 16-core Neural Engine
Memory	16 GB unified memory
Storage	256 GB NVMe SSD
Network	1 Gbit/s symmetrical · 1 public IPv4 + /64 IPv6
Best for	Lightweight CI runners, ad-hoc Xcode builds and macOS automation.

EUR 99 / month

Excl. VAT · cancel any time after the minimum term.

PLAN

M4 Plus (most popular)

CPU	Apple M4 · 10-core CPU
GPU / NPU	10-core GPU · 16-core Neural Engine
Memory	16 GB unified memory
Storage	512 GB NVMe SSD
Network	1 Gbit/s symmetrical · 1 public IPv4 + /64 IPv6
Best for	Daily iOS / macOS CI pipelines and Fastlane build hosts.

EUR 119 / month

Excl. VAT · cancel any time after the minimum term.

PLAN

M4 Premium

CPU	Apple M4 · 10-core CPU
GPU / NPU	10-core GPU · 16-core Neural Engine
Memory	24 GB unified memory
Storage	512 GB NVMe SSD
Network	1 Gbit/s symmetrical · 1 public IPv4 + /64 IPv6
Best for	Larger Xcode workspaces, simulators and concurrent test matrices.

EUR 139 / month

Excl. VAT · cancel any time after the minimum term.

PLAN

M4 Pro

CPU	Apple M4 Pro · 12-core CPU
GPU / NPU	16-core GPU · 16-core Neural Engine
Memory	24 GB unified memory
Storage	512 GB NVMe SSD
Network	1 Gbit/s symmetrical · 1 public IPv4 + /64 IPv6
Best for	Heavier parallel builds, ML inference and render workloads.

EUR 195 / month

Excl. VAT · cancel any time after the minimum term.

PLAN

Mac Studio M4 Max

CPU	Apple M4 Max · 14-core CPU
GPU / NPU	32-core GPU · 16-core Neural Engine
Memory	36 GB unified memory
Storage	512 GB NVMe SSD
Network	1 Gbit/s symmetrical · 1 public IPv4 + /64 IPv6
Best for	Production render farms, ML training and large mono-repo builds.

EUR 225 / month (min. 3 months)

Excl. VAT · cancel any time after the minimum term.

Included on every plan

- Dedicated, single-tenant Apple silicon — no virtualisation
- Tier III datacenter in the Netherlands (Amsterdam / Naaldwijk), Frankfurt optional
- Redundant A+B power feeds with remote-switched APC PDUs
- 1 Gbit/s symmetrical uplink, 1 public IPv4 and /64 IPv6 included
- DDoS mitigation at the network edge
- Optional JetKVM out-of-band console with ISO mount and virtual media
- 24/7 on-site remote hands for reboots, hardware swaps and on-site fixes
- Audit-logged power actions (on / off / reboot) with mandatory reason field
- ISO 27001, NIS2 and GDPR compliant operations
